

An Introduction to Risk Assessment

This programme covers the techniques for assessing risk within your organisation, applying them to examples of criminal activity and health and safety incidents. Once you understand the methods for assessing risk, you can modify and apply them to any area according to your own organisation's needs.

Key features

- It is enhanced with a narration feature for accessibility purposes.
- It is a level 2 programme (as graded against the nationally accepted levels for training programmes).
- 70% pass mark.
- Multiple-choice questionnaire
- Delivers 1 CPD hour.
- Certificate upon completion provides evidence of learning.
- Interactive design for higher engagement

Programme objectives

The programme comprises one module and one questionnaire. Its content covers:

1. Techniques for assessing risk.
2. How to apply the techniques to protect your organisation
3. Identifying risks and hazards
4. Methods for managing risk
5. Processes for assessing risk.

Why people choose us?

“I think it was great. I took my time and absorbed the information. When it was time to complete the assessment I opened the module as support but I didn't feel the need to use it.”
