No child
should feel
alone

The term modern slavery acknowledges the fact that millions of people are still held in conditions of slavery and servitude globally – including in the UK. Written in partnership with the Children's Society, this course raises awareness of this issue. It examines the different types of modern slavery and trafficking. It shows you how to recognise the main signs that indicate that someone has been trafficked. It also contains key information about the legal and policy context of trafficking in the UK and internationally and what action to take if you suspect someone has been trafficked.
