

SEND Awareness

SEND Awareness includes three one-module courses designed to provide an overview of Autism, Dyslexia, and ADHD for those working in education. At EduCare we ensure that all our courses are written and endorsed by experts. Each course in this bundle has been written in partnership with SEND specialists at Connect.

Key features

- Level 2 courses (as graded against the nationally accepted levels, equivalent to GCSE grades A*-C).
- Three interactive courses, including optional narration for accessibility, with each course comprising one module and one questionnaire.
- Three CPD hours in total, with individual personalised downloadable certificates.
- 70% pass mark.
- Additional resources for further learning and printable modules for future reference.
- Written and fully endorsed by SEND specialists at Connect.

Course objectives

SEND Awareness contains three one-module courses, written in partnership with Connect.

Autism Awareness - covers what autism is, its prevalence and causes, how it is diagnosed and the implications for pupil learning.

Dyslexia Awareness - provides an overview of dyslexia and visual stress for those that work with children and young people.

ADHD Awareness - covers the causes, prevalence, symptoms and diagnosis through to treatment and how to support children with ADHD.

Target audience

This course is suitable for teachers, support staff and anyone who works in an education setting with children from year 7 upwards.

SEND Awareness content:

Autism Awareness

- Know the terminology used to describe autism.
- Be able to identify the indicators that may suggest the presence of autism.
- Recognise the ways that autism can affect learning.
- Learn tips for an autism-friendly approach in classroom environments.

Dyslexia Awareness

- Understand that dyslexia is one of several specific learning difficulties (SpLDs).
- Understand the ways that dyslexia can affect learning.
- Learn some practical tips to support those with dyslexia.

ADHD Awareness

- Understand what ADHD is, as well as its causes prevalence.
- Diagnosing ADHD and reporting concerns.
- How ADHD can affect learning.
- Practical tips to support those with ADHD.

Why choose us?

“ EduCare provides the ability to train staff online ensuring that their needs can be met in a more timely manner, especially if they join half-way through the term. The fact that EduCare keeps a detailed training record is enormously helpful in ensuring that all staff have been trained to the appropriate level.

Phil Wise

Deputy Head Pastoral, Reading Blue Coat School

“ We purchased EduCare for Education to enable us to train all our staff in one go, but at their own pace and in their own time. It's very flexible and cost effective and the accredited courses are quality training. The online system has certainly met our expectations.

Penny Austin

Head Teacher, Walthamstow Hall Junior School
