

## Working with Display Screen Equipment

Working with display screen equipment (DSE) is common throughout the workplace. However, it can lead to spending long periods sitting looking at a screen and using a keyboard. If care isn't taken, some people can experience problems such as headaches, eye strain and muscle pain, and as a result, there are Regulations about its use. At EduCare we ensure that all of our training courses are written and endorsed by experts. This course is accredited by Secured by Design and meets national Police approved standards.

### Key features

- Level 2 course (as graded against the nationally accepted levels, equivalent to GCSE grades A\*-C).
- One module with a multiple choice questionnaire.
- One CPD hour with a personalised downloadable certificate.
- 70% pass mark.
- Accredited by Secured by Design and meets national Police approved standards.
- Optional narration of the module for accessibility.
- Additional resources for further learning and printable module for future reference.

### Course objectives

This course provides a thorough understanding of what display screen equipment is and how to use it safely.

1. Identify what display screen equipment includes.
2. Recognise the risks associated with using display screen equipment.
3. Understand what your employer's responsibilities are to ensure health and safety in your organisation.
4. Recognise what your responsibilities are regarding the use of display screen equipment.

### Why choose us?

“ We have used EduCare this year to support our staff in keeping up to date with the latest training in a number of health and safety and safeguarding areas. The online courses are well constructed and informative and staff feedback has been really positive. ”

Tim Harkins  
Business Director – Shoreham Academy
